Error ireport cannot find java.exe. Ireport cannot find java.exe windows 10. Error al instalar ireport cannot find java.exe. Cannot find java.exe ireport 5.6.0. Ireport cannot find java.exe.

This post shows you one of the possibilities to resolve the error from iReport. "iReport Cannot find java.exe". After you have downloaded iReport let say version 5.5.0. You have definitely installed Java SDK as well. But when you go to iReport-5.5.0\bin folder and run ireport.exe then you got the error message below. In iReport-5.5.0\etc, look for a file name ireport.conf. Open this file and look for the line like the one below. #jdkhome="/path/to/jdk" Delete the remark, #, and type in the path of your jdk or jre as following. jdkhome="C:\Program Files\Java\jdk1.7.0_80" 1. In iReport's installation find etc folder 2. Open file etc\ireport.conf 3. In file etc\ireport.conf find the line #jdkhome="/path/to/jdk" and change it to jdkhome="C:\Program Files\Java\jdk1.7.0_80" 4. Save the file. 5. Run iReport. 6. The error should be resolved.
